

BOW COMMUNITY ROBOTICS TEAM 4290

Bots on Wheels is excited to welcome: Caleb, Adrian, Ekijah, Spencer, Pranav and Anthony to our team.

Our new and returning members are keeping busy this summer by building a demonstration robot. This robot will be used for our community outreaches.

Welcome Baby Quinn!

In April, mentor Josh and his wife Natalie welcomed their first child, Quinn into the world. Bots on Wheels is looking forward to having Quinn join the team in about 14 years!

Quinn Heurkamp

“Congratulations” UNC Charlotte Graduate

Austin has been a mentor on our team for the last two years. We congratulate Austin on his accomplishments and his graduation in May from UNC Charlotte with a degree in Electrical Engineering. We're proud of you Austin!

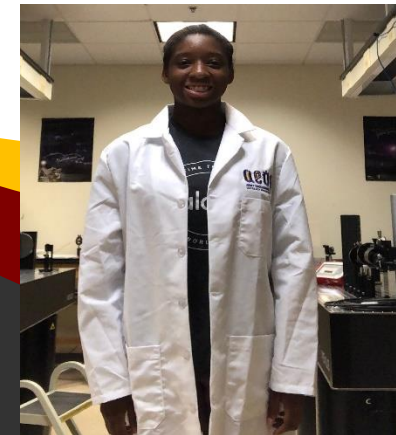

High School Graduate Class of 2019!

Finn has been a member of Bots on Wheels for the last two years. This year he held the leadership position of “Team Captain”. He graduated from South Iredell HS and plans to attend Gettysburg College majoring in Economics. Best wishes, Finn!

APPRENTICESHIP

Nyela will be a senior at Phillip O'Berry Academy of Technology this Fall and this will be her fourth year on our team.

Nyela has been accepted as a 2019 scholar for the Research and Engineering Apprenticeship Program (REAP) sponsored by the US Army Education Outreach Program (AEOP) through a grant with the Center for STEM Education at UNC Charlotte. Way to go, Nyela!

SUMMER FUN

On Sunday, June 2nd, Bots on Wheels held its annual team picnic at Reedy Creek Park in Charlotte. We had a great afternoon of relaxation, games and awards. What a great way to finish up a successful competition season!

Thank you, CSP! On Saturday, June 22nd several of our members and mentors attended CSP's annual employee picnic at Dan Nicholas Park in Salisbury, NC. CSP was a major sponsor for our team this year. It was a pleasure meeting CSP leaders, employees and their families. Our students had the opportunity to demonstrate our competition robot, Wheel Armstrong to CSP families. We all enjoyed great food, music, sno-cones and an afternoon playing mini-golf, gem mining and more! We appreciate CSP!

CSP Company Picnic

Outreach Events

Bots on Wheels has been busy with outreach events including End to End Charlotte on May 11th and The Clash of the Bots on June 15th. Students demonstrated their competition robot and helped to spread the word about FIRST and STEM to the more than 300 attendees.

Join Bots on Wheels on Saturday, July 20th for [ImagiCon 2019](https://www.imaginon.com/) at ImaginOn library in Charlotte. Imagincon is a celebration of culture surrounding comic books, graphic novels, manga, anime, fandoms and gaming. See you there!
