

BOW COMMUNITY ROBOTICS

TEAM 4290

On February 19, 2019 was “STOP” build day. At the end of the six weeks of build all teams must bag and tag their robots.

Teams are given six hours prior to their competition to unbag their robots and complete any final modifications.

See “Key Dates” for competitions that our team will be attending this year.

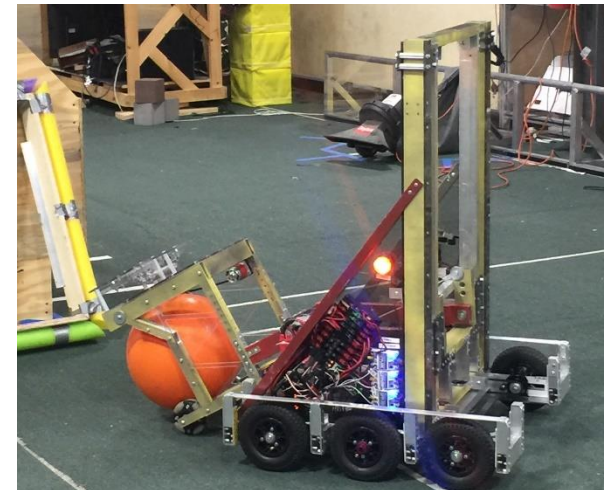

OUR SPACE EXPLORERS ARE PREPARING FOR LAUNCH!!

Students are reviewing Game rules, designing our PIT front, preparing for awards, making giveaways, attending communications training and continue fundraising.

ROBOT NAME

We are ready to “Roll Out” with our robot
“Wheel Armstrong”.

DESTINATION:
**DEEP
SPACE**

Presented By  **BOEING**

THANK YOU TO OUR NEW SPONSORS

CSP Continental Structural Plastics, A Teijin Group Company, Duke Energy and Piedmont Natural Gas.

OUTREACH EVENTS

During Tech Week our team attended an event hosted by Collins Aerospace at the Carolina Aviation Museum. Sixty plus girls had the opportunity to drive our robot and learn about the programs that *FIRST* offers students.

Attending a panel discussion by engineers who discussed their experiences and advice on how to reach for dreams. Astronaut Joan Higginbotham, the third African American woman to be launch into space was one the speakers. We also heard from other engineers including an underwater archeologist.

On **Wednesday**, February 27, 2019 teams attend *FIRST* North Carolina National Advocacy Day. We met with State Legislators to make them aware of *FIRST* programs and the opportunities the programs provide to students.

KEY DATES

Upcoming events are open to the public. Come visit us and see what our students have accomplished this season.

Saturday, March 16 – 17, 2019
Eastern Guilford High School
415 Peeden Drive, Gibsonville, NC 27249

Saturday, March 23 – 24, 2019
UNC Asheville
1 University Heights, Asheville, NC 28804
